

## Event containers

**Messerli breathes new life into office and freight containers** and converts them into high-quality, mobile locations for your events. Every container is custom made!

### Dimensions:

Available in a Euro-norm version or tailored to special dimensions

### Strengths

The size and fittings in the containers can be flexibly adjusted to your requirements. If more space is needed, several containers can be combined and stacked on top of each other. They are suitable for use throughout the year and can be insulated or fitted with air conditioning according to your needs.

### Use

As high-quality event locations, the event containers are suitable for long-term promotions, series of events or as the basis of pop-up stores and restaurants. The containers come with basic features according to your requirements and can then be constantly tweaked with regard to branding and interior design.
